

Krushanth Amalanathan

Intern Software Engineer

+94 755009877 krushanthamalanathan@gmail.com
 [Krushanth Amalanathan](#)  [KrushanthAmalanathan](#)  Colombo, Sri Lanka

Profile

Motivated software engineer intern with 6 months of hands-on experience in MERN stack development through a professional internship. Skilled in building scalable web applications, writing clean and efficient code, and collaborating within Agile teams. Proficient Python, PHP Laravel, and the MERN stack, with a strong foundation in problem-solving and software design. I thrive in team-based projects, communicate effectively, and adapt quickly to new technologies. Currently seeking a second internship or associate-level role to contribute my expertise and grow within a forward-thinking organization.

Professional Experience

Intern Software Engineer [Jasmin Media \(Pvt\) Ltd – Colombo, Sri Lanka](#) *October 2024 – April 2025*

- Assisted in developing and maintaining backend service APIs to support digital media solutions.
- Collaborated with the frontend team to integrate features and ensure smooth user experience.
- Contributed to implementing authentication and access control mechanisms for enhanced system security.
- Participated in code reviews, debugging, and performance optimization of core applications.
- Coordinated with senior engineers to meet project milestones and deliverables on time.

Education

BSc (Hons) Information Technology – Software Engineering [SLIIT University](#) **Malabe, Sri Lanka** *2024-Present*

Relevant Courses: Software and Hardware, Data Visualization, Business Intelligence, Digital Marketing, Time Series Analysis & Forecasting.

HND in Information Technology [SLIIT University](#) **Malabe, Sri Lanka** *2022-2024*

Completed GCE A/L in Physical Science [BT/ Chenkalady Central College](#) **Batticaloa, Sri Lanka** *2004-2017*

Technical Skills

- Programing Language:** Python, Java, C, C++, Kotlin, JavaScript
- Web Development:** HTML, CSS, Tailwind CSS, PHP Laravel, React, Node.js, Express.js, WordPress
- Database Management:** MySQL, SQLite, MongoDB
- Data Structures and Algorithms:** Various data structures (array, queue, linked list and tree) and algorithm for efficient problem-solving
- Development Tools:** VS Code, Android Studio, Eclipse, IntelliJ, Git, GitHub, Oracle
- Soft Skills:** Problem-Solving, Communication, Leadership, Teamwork, Time Management, Stress Management, Analytical Thinking

Achievements & Leadership

- Captain of the Batticaloa District Chess Team (8 years) and Eastern Province Chess Team (4 years), leading teams in regional and national tournaments.
- Mentored junior players and promoted strategic thinking, teamwork, and competitive excellence.

Projects

Hardware Management System Batticaloa, Sri Lanka	(Frontend) (Backend) <i>Dec 2025 – Present</i>
- Developed a web-based hardware management system for a real-world client to manage products, categories, suppliers, and inventory operations. - Implemented a modern, responsive user interface with intuitive workflows tailored to daily business operations. Technologies Used: MongoDB, Express.js, React, Node.js (MERN Stack), Tailwind CSS, Git, GitHub, Visual Studio Code. Role: Fully responsible for frontend development and partially involved in backend implementation, including API integration and data handling.	
Cinema Theatre Management System & POS Ticket Printing (GitHub) Batticaloa, Sri Lanka	<i>Feb 2025</i>
- Developed a movie theater system that allows adding movies, scheduling shows based on dates, and booking tickets at the counter by selecting specific shows and seat numbers; includes ticket printing functionality Technologies Used: PHP (Laravel), MySQL, Tailwind CSS, GitHub, Visual Studio Code, Hostinger Role: Fully responsible for frontend development and partially involved in backend implementation	
FoodDeliveryApp (Frontend) (Backend) (3rd Year – 2nd Sem)	<i>Mar 2025 - May 2025</i>
- Built a full-stack food delivery app with features like order tracking, restaurant management, and delivery status updates. Integrated Docker for containerization and deployment. Technologies Used: Node.js, Express.js, MongoDB, React, Tailwind CSS, Docker, GitHub, VS Code Role: Team Lead; implemented order tracking system and led Docker-based deployment setup.	
Real-Time Garbage Management System (GitHub) (3rd Year – 2nd Sem)	<i>April 2025 - May 2025</i>
- Developed a real-time smart waste management platform to optimize garbage collection and scheduling. Technologies Used: TypeScript, Node.js, Prisma ORM, Supabase, Next.js, Tailwind CSS, SQL, GitHub, VS Code. Role: Full-stack Developer; implemented appointment scheduling, location tracking, and user dashboards to streamline municipal waste management.	
ComfyFitness Application (Frontend) (Backend) (2nd Year – 2nd Sem)	<i>Feb 2024 - Jun 2024</i>
- Developed an online fitness management system allowing users to register, log in, book workout sessions, and track progress. Technologies Used: MongoDB, Express.js, React, Node.js, Tailwind CSS, GitHub, VS Code. Role: Full-stack Developer; built authentication system and integrated backend APIs for booking and user management.	
Mobile App (GitHub) (2nd Year – 2nd Sem)	<i>May 2024</i>
- Developed an Android mobile app to save special food recipes Technologies Used: Kotlin, SQLite, Android Studio Role: Solo developer	
Online Transportation Agency (2nd Year – 1st Sem)	<i>Jul 2023 - Aug 2023</i>
- Built an online platform for a transportation agency Technologies Used: Java JDK 8, HTML, CSS, JavaScript, JVC architecture, MySQL, Eclipse IDE, Apache Tomcat 9 Role: Login and Driver/User registration	

Languages

- **English** [Full Professional Proficiency]
- **Tamil** [Native]
